

# I Ain't Leavin' Without Your Love

Nashville Cast

I'm old enough to know that  
I'm too young to know a thing  
But Ive seen what Ive seen  
And if you ask me everything  
I'll ever need

Ive met alot of faces and I know a lot of names  
But everyone I've come across has all been just the same  
But That all changed,  
That all changed

Under the downtown neon lights  
That's when you caught my eye  
You got me all worked up  
I ain't leavin without your love  
Its obvious we both know  
This goin end tomorrow  
The night ain't long enough  
I ain't leavin without your love  
I ain't leavin without your love

Juxebox died closing time  
So take me by the hand  
Last call last song  
So Give me one more dance

Under the downtown neon lights  
That's when you caught my eye  
You got me all worked up  
I ain't leavin without your love  
Its obvious we both know  
This goin end tomorrow  
The night ain't long enough  
I ain't leavin without your love  
I ain't leavin without your love  
[2x]

Tonight ain't long enough  
I ain't leavin without your love  
Tonight ain't long enough  
I ain't leavin without your love  
I ain't leavin without your love
