

I'll Waltz You Home

Nashville Cast

Here we go dancin' again we know this old tune by heart
We know how this fight's gonna end the moment it starts
One step leads to another as sure as the night leads to day
When one of us tries to get closer, the other one dances away

We're spinnin' and whirlin' in danger of losing control
But our love is so strong... it's lasted so long we'd be fools
to let go
I don't want a new partner but I can't stand dancin' alone, all
alone
So come to my arms little darlin' and I'll waltz you home

I'll waltz you home, I'll waltz you home
Come to my arms little darlin', I'll waltz you home

Sometimes when lovers get angry they don't mean the things that
they say
When harsh words get spoken it's too late to take them away
Let's stop the music a minute... see if we can't change this so
ng
