

Love Can Hold It All

Nashville Cast

Hearts and hands that hurt
Hearts and hands that heal
All the things we question
Everything we feel
Love can hold it all

Words we could've said
Things we should have done
The beauty and the darkness
Inside of everyone

Love can hold it all
Oh, love can hold it all
Both sides of the story
The rise and then the fall
Love can hold it all

Loves and lives we've lost
Sometimes way too soon
The magic of the memories
The ghost left in the room

Love can hold it all
Oh, love can hold it all
The answers and the mysteries
The rise and then the fall
Love can hold it all

Sometimes we forgive
And sometimes we forget
Sifting through the worries
Of what hasn't happened yet
Love will hold it all

Love can hold it all
Oh love can hold it all
The broken and the mended
The hearts within these walls
Love can hold us all
Love can hold it all
