

Then I Was Loved By You

Nashville Cast

I have been a mover and a shaker
A sinner and a taker
A big mistake maker all my life
I was a sucker for a good time
A crosser of the straight line
A shadow in the sunshine
And I was blind

Then I was loved by you
I was lost, as lost could be
I was running aimlessly
Down the road that only leads to nowhere fast
Couldn't no one slow me down, lift me up of solid ground
Yeah a love is nothing more than broken glass
Then I was loved by you

I've been looking for a lover
Somewhere deep down in the gutter
Taking cover underneath the neon lights
I was always on a banter
Back before I knew me better
Happy ever after never crossed my mind

Then I was loved by you
I was lost as lost could be
I was running aimlessly
Down the road that only leads to now where fast
Couldn't no one slow me down, lift me up on solid ground
Yeah a love was nothing more than broken glass
Then I was loved by you
