

We Belong

Nashville Cast

All eyes on us all the time
It's like you're keeping score
What are you waiting for
All we know you pay no mind
But have a lot to say
About the moves we make
All eyes on us, all the time

We belong, we belong together
Tied tight like lace and leather
Wanting the world to see
The beauty underneath
We're strong, we're stronger together
We'll fight for love forever
Until the world can breathe
In perfect harmony

(We) We belong
(We) We belong together
(We) We belong
(We) We belong together

Every battle, every bruise
Is like it doesn't hurt
'Cause we know that it's worth
Everything we have to lose
And we'll get up again
And go together
And every battle, every bruise

We belong, we belong together
Tied tight like lace and leather
Wanting the world to see
The beauty underneath
We're strong, we're stronger together
We'll fight for love forever
Until the world can breathe
In perfect harmony
