

# Will You Feel The Same

Nashville Cast

When you're out in the cold  
And get thrown to the flames  
When a moment feels good  
But it ends in pain  
When you wanna get out  
And you're done with the games  
Oh no

When you're losing it all  
Over some bad advice  
You've seen it before  
Maybe once or twice  
At the end of your road  
If I look up to the sky  
And I pray you stay alive

After the smoke is gone  
I open my eyes and I see you  
I'm tired of this fight to get us through

When the world starts to change  
Will you feel the same  
When they're calling your name  
Will you feel the same  
When you're given the blame  
Will you feel the same  
Will you feel the same

Well I'll be there for you  
As long as you're right there too  
Well I'll be there for you  
Take my word, you know I'll follow through

But there's nothing to take  
'Cause you're giving it all  
We still rise above  
Even when you fall  
When you're like all silent  
You hear my call

After the smoke is gone  
I open my eyes and I see you  
I'm tired of this fight to get us through

When the world starts to change  
Will you feel the same  
When they're calling your name  
Will you feel the same  
When you're given the blame  
Will you feel the same  
Will you feel the same

Well I'll be there for you  
As long as you're right there too  
Well I'll be there for you  
Take my word, you know I'll follow through

Well I'll be there for you  
As long as you're right there too  
Well I'll be there for you  
Take my word, you know I'll follow through

After the smoke is gone  
I open my eyes and I see you  
I'm tired of this fight to get us through

When the world starts to change  
Will you feel the same  
When they're calling your name  
Will you feel the same  
When you're given the blame  
Will you feel the same  
Will you feel the same

Well I'll be there for you  
As long as you're right there too  
Well I'll be there for you  
Take my word, you know I'll follow through

Well I'll be there for you
