

Without Warning

Nashville Cast

I've been adrift
Like a rudderless ship
I rely on the pull of the moon
Oh, I'm in no hurry
The ride is a journey
And I'll know where I'm headed soon

Every new change is a blind leap of faith
And I hope that I make it with you

Stay beside me, on my way to find me
And I'll pray, you'll guide me
Without warning
Lose our senses
I'll choose how we end this
With the blue
With the blue of the morning

I'm gonna rise with the sun
Like a man on the run
To feel wanted and reckless and free
I'll find what I'm missing
Out there in the distance
And I'll know where I'm meant to be

'Cause every new stage is a runaway train
And I hope that you're here when it leaves

Stay beside me, on my way to find me
And I'll pray, that you'll guide me
Without warning
Lose our senses
I'll choose how we end this
With the blue
With the blue of the morning

Oh, come when I go
And need you by my side
And oh, come when I go

Stay beside me, on my way to find me
And I'll pray, that you'll guide me
Without warning
Lose our senses
I'll choose how we end this
With the blue
With the blue of the morning
With the blue
With the blue of the morning
