Funky Town

Našrot

I´ve seen the lights of Funky Town
How they vanished in the morning haze
I´ve seen hundred hundred feet on the ground
How they dance in the rhythm of blaze
I´ve seen a nice girl how she´s jumpin´ over fire
Oh yeah
The fire, fire, fire, fire, fire
I wanted to fondle her soft body
Suddenly she stood before me
She said: I want people to try
To find love first day
I want people to try
To see a spark of love in my eyes
So come on
We smoked lofty grass in Funky Town
And she wore only beads
And then we danced the whole night and we felt fine
And I dove into the rhythms & beats
I see dawn, dawn, baby, I love this dancing river
You said
The river, river, river, river
I want to love you, man, and that´s why
Let the river to its fate
She said: I want people to try
To find the love first day
I want people to try
To see a spark of love in my eyes
(and said)
Sex, night, sins and the play
I wanna fly across space (hey!)
I wanna see red diamond way
To walk in a light summer rain
I always have something to choose
And I don´t want to get lost
Don´t you have anything to say?
And I only told her: baby – it´s a summer day!
It was a dream in Funky Town
In the mornin´ I awoke alone
All put to silence in the empty town
But I would like watchin´ the show
I´ve seen from my window only leaves in the wind
Oh yeah (no native girl)
No people, no music, no party, no girl
I only hear the words of her mouth
Which she whispered to my ear
I want people to try
To find the love first day
I want people to try
To see a spark of love in my eyes, so come alone
