

Talk

Našrot

Throng in square, high count of heads
I never never heard so much Brainz
They talk about more things -
- People, hate, sport, death and pigs
I know, I know when I am
A component of this people's game
I, I, I am the same
Maybe I prate faster than them

We reel roundabout
Still we accept North and South
More things in this world
More informations, many words
No, no, I try to moot
With a strange fate, but I always lose
The times were good, the times were fast
But you know my friend, they ain't gonna last!

Talk, talk, talk, talk, talk

When I gas, yeah, with my friend
I feel good, yeah, and I clear my head

And so the talkin' head
Is searching for different talkin' heads
hey friend did you see?
Was it a head or TV screen?
Hey you, come with me
We'll go for lunch /some rice and meat/
We wander with empty trays
Eatery was drowned in a sea of talk

Time, time, time is for talk...

Talk, talk, talk, talk, talk

When I gas, yeah, with my friend
I feel good, yeah, and I clear my head
