

Us And Them

Našrot

Us and them

We wanna amuse
Be in a good mood
Not their grey life
Yeah
We wanna stay in love
Wanna be free
And smoke the GRASS
And they wanna have
At one's command
And supervise
Yeah
They wanna destroy
All what is new
And it's beyond them

I do it all for myself
Walk in the door of grace
Into the Gates of Dawn, you sucker
And whom do you do it for?
Into what kind of door
Do you go, tell me now, you sucker?

We're on the gathering
Of all open hearts
Sing OUR songs
Yeah
We wanna break on through
To the other side
We wanna be high
They call: This gathering
Is not permitted, please disperse!
Do you understand me?
Fuck you!
We will never do
What you order me
Or will you shoot us all?

I do it all for my self
Walk in the door of grace
Into the Gates of Dawn, you sucker
And whom do you do it for?
Into what kind of door
Do you go, tell me now, you sucker?

You suckers!

Us and Them...
