

# Life Of The Party

Nasty C

Girl, I'm the life of the party  
I like it when you move your body  
She call on my name like I'm Khaled  
She don't wanna dance with nobody (Asambe)  
Give the love I wanted, the love I needed  
Oh, she got it  
Give me that, give me that  
Give the love I wanted, the love I needed  
Give me the life  
She got it  
Give me the vibe  
She got it

Turn up the volume  
Pour up the liquor  
Roll up the ganja  
Load up the shisha  
True party animals, it's lookin' like a zoo  
Pop Don Ju, I finished the Azul  
She a party animal, I'm a party creature  
She a cheese girl and I'm coming with the pizza  
Peperoni Benz, it's a two seater  
I am your leader, straat ghabadiya  
Aiy mama mia, she's pretty like Aaliyah  
Romeo must die, I'ma Jet Li her  
Ntwana you should see her, she's hot like a heater  
You're making me nervous, I need some tequila  
Roll some more weed up, it's stronger than bautista  
Or maybe John Cena  
I get it from a libra  
Confusing the enemy, aiy siyabadida  
She drop it down low, ushayi tsipa tsipa
