

Not Tonight

Nasty C

Ups and downs, that's just life
Sometimes you gotta be in the dark to see the light
I fucked up once, and I fucked up twice
Could be better but I just wanna be me tonight

I'ma just let shit be tonight
It's just me and my weed tonight
I'm always at work tryna fix myself
Goddammit, I'm takin' my leave tonight
Sitin on D&D tonight, you gon' let me breathe tonight
I can't switch up the plan, it's not like I can't give a fuck 'cause I can
I just do not like a rope in my hand
Bitch I'm the man, what part of no do you not understand?

Why would I feed you, you buyin' my hand?
Can't fuck for that shit again, not a chance
Not a chance, not a dope
What's gotten into you hoes, I don't know

I'm broke, you gotta go
I ain't scared to be lonely, I've been there before
With a blunt in my hand and my phone out of sight
Keep the volume at a height
Got a snack on my left and my right
I ain't bored like I'm missin' a flight, that's right
Yeah, yeah
And I'm talkin' my shit on the mic
Drop the weight off my shoulders
I'm light and I wasn't before but I'm feelin' alright

Ups and downs, that's just life
Sometimes you gotta be in the dark to see the light
I fucked up once, and I fucked up twice
Could be better but I just wanna be me tonight

I'ma just let shit be tonight
It's just me and my weed tonight
I'm always at work tryna fix myself
Goddammit, I'm takin' my leave tonight
Sittin' on D&D tonight, you gon' let me breathe tonight
I can't switch up the plan, it's not like I can't give a fuck 'cause I can
I just do not like a rope in my hand
