

## Pressure

Nasty C

I learnt how to speak less and I think louder  
They told me it's a jungle in the J, fuck it we still drove up here f  
or six hours  
I was all about a damn squad back then  
But look at all the niggas that I'm left with now  
Less is more nigga the stress is gone  
The only time I feel the pressure is when I'm standing in the shower  
(When I..)

I smoke a lot more  
And people around me say it's a bad habit  
I wish I could tell you how I let that happen  
But what did you expect? I'm a black man  
Pants sagging, a rap accent, a bad tantrum and jack asses  
Foul language, a proud savage  
They told me open up more I told them "File damaged"

I learnt how to speak less and I think louder  
They told me it's a jungle in the J, fuck it we still drove up here f  
or six hours  
I was all about a damn squad back then  
But look at all the niggas that I'm left with now  
Less is more nigga the stress is gone  
The only time I feel the pressure is when I'm standing in the shower  
(When I..)

Everyone around me know the business  
Bank accounts say you should be offended  
The word of mouth say I could've just winged it  
You double cross me I forget that I'm a Christian  
Only riding in it if it's tinted  
They spazz when they see me dawg, I seen that  
A woman with some head is a genius [x2]  
You only mind your business if it's booming  
And that just tells me how you really doing  
...has been fucking other niggas  
Between me and you, I'm just as human  
I wouldn't blame you, you're a human  
I'm only saying this because I know what I've been doing  
I'm only saying this cause I'm improving  
And everything I say I hope I prove it

I learnt how to speak less and I think louder  
They told me it's a jungle in the J, fuck it we still drove up here f  
or six hours  
I was all about a damn squad back then  
But look at all the niggas that I'm left with now  
Less is more nigga the stress is gone  
The only time I feel the pressure is when (aye, aye, aye)

Less is more nigga the stress is gone  
The only time I feel the pressure is when I'm standing in the shower

(when I..)
