

Problems

Nasty C

Nigga I got problems
What you think I'm smoking for?
What you think I'm smoking for?
I've been quite for a while now
Think I should be open more
Think I should be open more
You don't know how I've been over timing
It's kind of hard to maintain sober minded
What you think I'm smoking for?

She just gave me a banger and some headphones and I can reach forever
I know my teachers probably never thought I would be this clever
Just another freedom lover
The industry will play you get you hair get you a bed but then forget to leave some covers that's cold
See I was just a little rascal
Watching BET videos like man that's cool
I swear I had a million dollar plan at you
Now I decide in the summer to let my pants hand loose
Now I'm feeling like I got my Juice Back
It was a climb from the bottom I'm just glad I got my View back
And some haters I told them 'Voetsek'
I ain't got time for your bullshit
Trying to record a winner so badly I'm about to lose it
Surrounded by these beats I'm just glad I ain't got no bruises
But I got problems, and I gotta do good

Nigga I got problems
What you think I'm smoking for?

You don't know how I've been over timing

What you think I'm smoking for?

To see the bullshit on my back drop
Cause, nobody know me when the track stops
Bitches wanna see the champagne or the strap pop
'Cause a bursted condom is a jackpot
99 problems, 99 Jerks
Quiet niggas normally smoke the loudest
I bet I treat your woman like she's mine
Hit the loud like once a month and leave my conscious spotless
Problems, pressure cause if I up and left I'd leave a lot of niggas stressin g probably jobless
Yes sir, I took that private jet to fly back home and fill my nest up
I'm walking in a straight line and shaking these haters off me
Niggas that put their word on the cross and they double cross me
Bitches that hate the gentlemen and since my poppa taught me
And that's problems on problems on problems

I got problems
What you think I'm smoking for?
What you think I'm smoking for?
