And each one of them said they were beasting, Now what does that make me?
I see these niggas is scared, How come ya'll wasn't Prepared?
Man I thought Einstein explained $E=MC$ squared
Boy don't stare too long cause your eyes might burn
If it ain't about the dough it's none of my concern
Someone should have told you not to leave a stone unturned
As I hopped up, snuck up, and I stole my turn
Now it's Rush Hour, I run Howard
Just kush clouds and blunts showers
In Baton Rouge I used to Eddie Bauer
Bumping' Jubilee, What you Know about it?
I roll a Bla and I "Take Off"
Learn the rules and then break them
That's enough to make society forsake him
But in due time they'll see it's all innovation
I started from the bottom, 3rd World Problems
Fleed to the states then we ran into some poverty
03' Migrated to the YEG
Dropped O-E-N-C-E Took off wit Nasty_C
