

This Time

Nasty C

I'll listen more peep your perspective
More delicate and less aggressive
I'll be impressive
I'll impress ya

Won't let the hoes put you under pressure
More eggplant emojis when I text ya
More eye contact when I sex ya
Give you less of a reason to give me a lecture

Call me a mess up
I know I messed up
I know I messed up
But that part of me died
I'm yelling rest up

Calling you mine with pride
I beating my chest up
Play you some Bruno Mars
You're my treasure

I toss you in the sky like a wrestler
Make you land on my pecker
Be extra
Bring you flowers to your job
Lick your neck up
And then take you home and I press ya
Never depress you

I still need you
I won't let you down
I won't miss this time
I still need you
In my life
Ndiyaz'fela ngawe

I still need you
I won't let you down
I won't miss this time
I still need you
In my life
Ndiyaz'fela ngawe

Nana sula, inyembezi
Xa ndikhona, siba Happy
Asibe Happy
Asohlulwa zindudumo
Yon'imvulo sizo dlala ngayo

Kunini ndihamba
Ndifunana nawe
Ndakthanda laweyi
Ndik'thanda laweyi

Ndimesthembiso
Nasebunzimeni
Andiyi ndawo

Yeah, If fate won't shake and the rules
Won't break this time
I'll do whatever it takes this time
They always say the truth tastes bitter
But I'm a real nigga
So to me it taste's just fine

I take what's mine to the chin
Take my nails to the palm when I commit sin
For the times I got under your skin
I apologize
Hope these words find your heart and colonize

Cause we've been through harder times
Like that time in July
We both cried
There was nowhere to hide
In the same room shoulders cold as ice
But we said fuck it and we rolled the dice
I wonder if we can roll it twice
Yeah

I still need you
I won't let you down
I won't miss this time
I still need you
In my life
Ndiyaz'fela ngawe

I still need you
I won't let you down
I won't miss this time
I still need you
In my life
Ndiyaz'fela ngawe
