

## Step Up To The Plate

Nasty Savage

Your mind is a  
laboratory of an  
illusion  
jack of all trades  
master of none  
isolation of your  
anger  
perception of  
hopelessness  
lots of debt  
and no regret  
no plan in life  
is set  
a guarantee to  
disagree  
leads to a  
killing spree  
discipline to no one  
as you  
load your gun  
never will you listen  
a future in prison  
lies manipulation  
promises deception

Step up to the plate  
the past is full of hate  
step up to the plate  
before its too late

(solos)

Disfunctional alcoholic  
master of disaster  
take a good look  
hate is what you are  
after  
the excuse book is full  
no more time for the lies  
talk is cheap  
action replaces words  
lies manipulation  
promises deception

Step up to the plate  
the past is full of hate  
step up to the plate  
before it's too late
