

At Night

Nasty

Sweet dreams they say, sleep well and tight
But I'm afraid, if it comes the night
May I stay up longer?
Please don't make me sleep
And you think I'm kidding but I am on my knees!

And I close my eyes...

Haunted
Hunted!

When I close my eyes, demons haunting me!
When I wake up, they took another piece of me!
When I fall asleep, demons hunting me!
Please wake me up, and end my misery!

Lurking in my dreams! nothing I can do!
As far as I can remember back at night those things come true
My darkest thoughts combined with pain, sweating cold, it purs
black rain
Darkness surrounding me covering me in agony

Killing my friends with tears in my eyes, but they won't die!
Hitting on their heads, I can feel their pain but no one hears
me cry
Please make me stop I am not to blame
You're waking me up, but I gonna sleep again

Slicing
Stitching
Sleeping
