Declaring War (2023)

Nasty

An oppressed culture on the rise
This rising army, oppressors demise
The time is now, time to go
Time for war, declare it now, now

An oppressed culture on the rise
Let's wreck those buttheads, let's show them who we are
No longer will they handicap our movement
Burn Babylon down!

With music as our weapon
Munition in form of words
Striking from the underground
Fighting guerrilla warfare

This is guerrilla warfare
Pressure from the underground
This is for real guerilla warfare
Fighting guerilla warfare

An oppressed culture on the rise
This rising army, oppressors demise
The time is now, time to go
Time for war, declare it now, now
Declare it now

No longer we'll fight less accept you
Threatening us bad high from your thrones n' stuff
We will angry gonna fight you like a mob
We'll fight and like kings we'll rise above
