

Declaring War

Nasty

an opressed culture on the rise, this rising army oppressors demise

the time is now, time to go, time forward, declare it now!

Lets wreck those buttheads, lets show them who we are

no longer will they handicap our movement

Burn Babylon Down !

With music as our weapon, munition in form of words,

striking from the underground, fighting guerilla warfare

this is guerilla warfare, pressure from the underground

this is for real, guerilla warfare, fighting guerilla warfare

No longer we'll fightless accept you, threatening us bad high from your thrones 'n stuff

we will angry gonna fight you

like a mob we fight and like kings we rise above.
