

Menace

Nasty

We are all fucked
Hurt but you can't relate
Life gets drained closing stone cold chains
Drill through heads
Get those meds
You want to turn it off but you can't escape

Actions enforce consequences
Impressions turn to horror trips
Wonder why your wounds only stronger bleed
Your expectations just shattered kid

Reaching out for help but your hands just stuck
When life gets artificial but you can't keep up

Menace
I am
You are a
Menace
They are
We are a
Menace

Out of luck
And you gon need some peace
All those doubts it inflicts they gon need release
Tell me who's still here at first dawn
Who's gon rage when the purge is on
This world on fire
And they're privatizing water while those flames burn higher
From lover to hater
From cure to a threat
It's all fucked up
You pull a gun to your head
