

# I Used To Love You (But It's All Over Now)

Nat King Cole

I used to love you but it's all over  
All over now  
You know it's all over town  
That you threw me down  
You shouldn't let that kind of story go 'round

You've had your chance and now it's all over  
I'll get along somehow  
Now there are things that you did I used to forgive  
But you'll never change dear as long as you live  
Oh I used to love you but it's all over  
All over now

You've had your chance and now it's all over  
I'll get along somehow  
Now there are things that you did I used to forgive  
But you'll never change just as long as you live  
'Cause I used to love you but it's all over  
All over now
