

I've Got A Way With Women

Nat King Cole

Some men wanna be brilliant
Some want a lot of cash
Some have a whim for the social swim
Just so they can make a splash

I have none of these talents
Still I'm doin' ok
Please don't think I'm conceited
When I say...

I've got a way with women
They like my dreamy eyes
I've got a way with women
A casanova in disguise
I've got a way of talkin'
And moonlight walkin'
Girls just can't resist
And when I started flirtin'
I'm always certain
They just can't wait to be kissed

I've got a way with women
But one girl made me fall
And out of all the women
I really loved her best of all
See I was doin' swell
Until she fell for somebodyelse's line
I've got a way with women
But someone got a way with mine

I've got a way with women
But one girl made me fall
And out of all the women
I really loved her best of all
See I was doin' swell
Until she fell for somebodyelse's line
I've got a way with women
But someone got a way with mine
Oh, someone got a way with mine
