## **This Morning It Was Summer**

**Nat King Cole** 

This morning it was summer I remember long ago A skylark on my shoulder told me so

This morning we were lovers We were happy and we were gay But now, love you are somewhere far away You left me in the sunshine, now there is rain Oh I tried so hard to find you But all my searching was in vain

This evening it is winter Yet my heart sounds this alarm This morning it was summer in your arms Yes I tried so hard to find you But all my searching was in vain

This evening it is winter Yet my heart sounds this alarm This morning it was summer in your arms Summer in, summer in your arms.
