

Two Together

Nat Stuckey

If you're not in my arms then you're too far away
And when you're far away I'd get the blues
You're the first thing I think of at the dawn of day
And the last thing that I'll ever want to lose
Oh I start to weak all over when you're out of my sight
And I know till your return I won't feel better
So keep on loving me the way you do
Just as long as you want me to
And we'll always be together
At times I know my feet don't even touch the ground
And it's because of you I feel this way
Hmm there's not a thing that I can think of that can keep me do
wn
Just as long as I can see you every day
I've heard 'em say that true nearly always fades
Ah but we know something they don't we know better
So keep on loving me the way you do
Just as long as you want me to
And we'll always be together
