

A Song for Christmas

Natalie Cole

Christmas can be a lonely time of year my friend
And when the times get tough
And don't even have enough for a card to send
Well you can always do the best that you can

So I bring you a song for Christmas
May love be with us in our hearts
And may joy and true happiness take part

Christmas sometimes I wonder what it's all about
And though I've had my doubts
Maybe that ray of hope can come shinin' through
And this old world can be a better place for me and you

So I bring you a song for Christmas
May love be with us in our hearts
And may joy and true happiness take part
