

## Danger Up Ahead

Natalie Cole

Oh, I'm living in the country  
Of people guilty  
Of laughing on the outside  
While they're crying within  
Being in a world  
With people afraid to give  
Little bit of kindness  
But they say I'm your friend

What they don't know  
There's a danger up ahead  
Look out, be careful  
Of this danger up ahead

Tell we  
Why do we keep on fighting  
When our backs are up  
Against the wall, that wall, hey  
We wear our personalities upon our sleeves  
No compromise in sight, we do as we please  
It's time to realize the price of freedom  
Is making some sacrifices  
For what you believe in, oh, Lordy  
There's a danger, a great danger

Say, try to remember  
To watch everything you do  
Somebody's watching you  
They're writing it down  
Don't let society  
Tell you what you should be  
You know the truth  
So follow that sound

'Cause what they don't know  
There's a danger up ahead  
Watch out, be careful, look out now  
For the danger up ahead

Why do we keep on fighting  
That's not the answer to peace of mind  
Can't we see the writing on the wall  
The sky's about to fall  
'Cause there's a danger, it's up ahead, oh...

Just look all around you  
I think a danger has found you  
Hey, it's in your town  
Look up, look all around

Just you wait and see  
You can't let the green grass fool you, no  
You can't run away from grandfather time  
So, make up your mind  
And get off your knees  
Uh, no begging please  
It's time to freeze

And deal with the reality  
'Cause security has fallen, my love  
There's a danger up ahead

Oh, yeah, we got a danger  
Look out, watch yourself  
Look out for the danger

Why do we keep on fighting  
When our backs are up against the wall  
Oh, that wall over there, y'all  
And our personalities, we wear on our sleeves  
No compromise in sight, we do as we please  
We got to realize that the price of freedom  
Is paying a sacrifice for what you believe in  
Don't you know, can't you see it  
Straight ahead, danger, oh...

Oh, Lord, help us all!  
Look for the danger  
Well, take it from the danger  
My, my, my family  
My family's in danger, it's up ahead

Stand back, look out, be careful  
Watch out for the danger, got to feel it  
It's coming, whoo, coming fast  
I'm taking about the danger, danger, danger

No, no, danger, no, don't, don't  
Don't you let it get you  
Danger, no, oh, danger  
Talking about danger, it's up ahead  
Woo-woo, danger  
Woo, up ahead, don't you see it, it's coming  
When it comes, my family's in danger  
And I'm in danger  
Oh, what should I do  
I'm looking at the danger

Woo...  
Na-na-na-na-na-na, danger
