

I'm Ready

Natalie Cole

I was a young girl
Too young to love you baby
But I'm ready to love you now
Even as a young girl
I adored you then baby
And I adore you even more right now

I think I'm ready
(To love you and kiss you)
I know I'm ready
If you are willing to try
I'll be giving my love to you
Givin' it all to you

I've waited so long
Just to be in your arms
And now that I've found you
I'll never let go (ooh baby)

You've been my strength
And my source of inspiration
And darling I truly
Truly want you to know

I think I'm ready
(To love you and kiss you)
I know I'm ready
If you are willing to try
I'll be giving my love to you
Givin' it all to you

I think you're special (my love)
You're someone I've longed for
If you are willing to try
I'll be giving my love to you
All of it
All to you

There you go baby
Playing with my mind
Asking me am I old enough this time
All I can say is
Before the clock strikes ten
We're gonna be much more than just friends
Cause I'm ready

I think I'm ready
(To love you and kiss you)
I know I'm ready
If you are willing to try
I'll be giving my love to you
Givin' it all to you

I think I'm ready to love you now
I think I'm ready to love you now
If you are willing to try
I'll be givin' my love to you

Givin' all of my love
I'll be givin' my love to you...
