

# The Rest of the Night

Natalie Cole

Ooh, ooh, ooh

Oh, yeah

Baby, what's your hurry?  
Where are you goin' so fast?  
You can keep your motor runnin'  
But don't run out of gas

Getting there's half the fun  
'Cause you've got the rest of the night to hold me  
And the best of my love's yet to come  
For the rest of my life I'm gonna love you  
So take a little longer, my love can only get stronger

If we're gonna climb a mountain  
We gotta take out sweet time  
When you're traveling down love's highway  
Don't you know speeding is a crime?

Listen, getting there's half the fun  
'Cause you've got the rest of the night to hold me  
And the best of my love's yet to come  
For the rest of my life I'm gonna love you  
So take a little longer, my love can only get stronger

Oh, my baby, we gotta slow down  
Take your time, ease your mind  
So stronger, rest of my life, I'm gonna love you  
So just take a little longer and our love is gonna get stronger

'Cause you've got the rest of the night, oh yeah  
And the best of my love yet to come  
Oh, baby, for rest of my life, I'm gonna love you  
I want you to take your time  
Love me baby, love me baby, love me, love me

Slow down baby, I ain't goin' nowhere  
So why don't we just take our sweet time  
Don't rush me, you're gonna crush me, let the fever climb  
Oh, remember that song about a slow hand, now she had the right idea

So, baby, what's the hurry? We've got forever  
If we don't use it up too fast  
Take it slow, calm down, smell the roses  
We'll get there, don't you worry

Rest of the night, to hold me  
Best of my love, yet to come  
Rest of my life, love you
