

# Too Much Mister

Natalie Cole

Baby you let me down  
And now you're walking with  
Your head up high  
I didn't know how much it hurt  
Till a tear fell down from my eyes  
I'll walk out of your life, Mister  
Exactly the way that I came in  
In fact  
When I leave I'm never coming back  
(Just think)  
All the time I thought you were mine  
It turned out to be one big game  
Played on me  
I thought you were on my side  
But you took me for one big ride  
Hey, hey, hey

Too much, Mister  
Too much  
Too much  
You're too much for me Mister  
Too much  
Too much  
Too much

I've never known anyone like you  
Who could make me do things  
I don't want to do  
Turn around  
And make love to my friend  
You wanna know what really hurt me  
Is when you lied in my face  
Disgust and disgrace  
All the time I thought you were mine  
But it was plain to see  
I was only dreaming  
Next time I won't be blind  
I won't have just love on my mind

Too much, Mister  
Too much  
Too much  
You're too much for me Mister  
Too much  
Too much  
Too much

I felt your fire  
I felt your flame  
But you'll never feel my love again

Too much, Mister  
Too much  
Too much  
You're too much for me Mister  
Too much  
Too much

Too much
