

Your Face Stays in My Mind

Natalie Cole

I remember the day I first saw you
You drove me out of my mind
You knew I just couldn't ignore you
You were so sweet and so kind

You're on my mind
Every night and day
And no matter what I do
Your face won't go away

Your face stays in my mind
Your face stays in my mind
Your face stays in my mind
All the time
All the time

Oh yeah, yeah, yeah, yeah, yeah

Ooh baby, I guess I'll never get you out my mind
'Cause when I try I only waste my time
Loving you this way just should not be
You know what your grown to be a special part of me

And your face is everywhere
It's in the air that I breathe
Keep seeing it in my mind
Why don't you tell him for me

Your face stays in my mind
Your face stays in my mind
Your face stays in my mind
All the time
All the you
