

## everything 2 nothing

Natalie Jane

Do you think about me  
When you're laying with her  
Start to panic  
Cause the shape of your body  
Is getting hard to picture  
Now I'm standing

Barefoot on the solid ground cause I need something real  
Left is right and up is down I don't know what to feel

How'd we go from everything, everything, everything  
To nothing at all  
How'd we go from kissing and loving and falling deep  
To now we don't talk  
It was a beautiful life we created  
Who knew a few stupid words could erase it  
Was I even anything, anything, anything  
Or nothing at all  
At all

Kissed me on the counter  
Where you make her dinner  
Is it different  
Cause I still smell the flowers  
And see you in the mirror  
I'm reminiscing

Barefoot on the solid ground cause I need something real  
Left is right and up is down I don't know what to feel

How'd we go from everything, everything, everything  
To nothing at all  
How'd we go from kissing and loving and falling deep  
To now we don't talk  
It was a beautiful life we created  
Who knew a few stupid words could erase it  
Was I even anything, anything, anything  
Or nothing at all  
At all

How'd we go from everything, everything, everything  
To nothing at all
