

## finding u

Natalie Jane

Maybe it's obsession  
Maybe it's addiction  
Knew I was picking my poison  
Killing me but I enjoyed it

I know it's unhealthy  
But I can't really help it  
Wanna delete all our history  
But I can't forget how you kissed me

Can't replicate  
What you do to my brain  
Yea it's hopeless

How am I supposed to find somebody after finding you?  
How am I supposed to find somebody after finding you?

I'm losing my patience  
It's the separation  
Falling in love with a memory  
That's what I do when I daydream

Want you even deeper  
Now that you're not here  
Baby I'm hearing you echo  
Making me not wanna let go

Can't replicate  
What you do to my brain  
Yea it's hopeless

How am I supposed to find somebody after finding you?  
How am I supposed to find somebody after finding you?

Maybe it's obsession  
Maybe it's obsession  
Maybe it's obsession  
Maybe it's obsession
