

# Somebody To Someone (I Just Wanna Fall In Love)

Natalie Jane

I don't wanna spend forever lonely  
I don't think I'm asking for too much  
Falling in love just happens slowly  
We get close but it's never enough  
Sometimes I think that I'm the problem  
Sometimes I'm afraid it's me  
'Cause all of my friends are busy falling  
I look happy for them but underneath

I just wanna fall in love  
But I always get it wrong  
I just wanna feel like somebody to someone  
I just wanna fall in love

I just wanna fall in deep deep love for once  
Give away my heart and it opens up  
Someone who will be there when I sober up  
In the morning when it's boring  
Be my cardio  
Somebody who knows how to hold me close  
Someone unafraid to be emotional  
In the morning when it's boring

I just wanna fall in love  
But I always get it wrong  
I just wanna feel like somebody to someone  
I just wanna fall in love

I just wanna fall in love  
But I always get it wrong  
I just wanna feel like somebody to someone  
I just wanna fall in love

I just wanna fall in love  
But I always get it wrong  
I just wanna feel like somebody to someone  
I just wanna

Fall  
Fall in love  
I just wanna fall in love
