

Torture

Natalie Jane

She looks just like me
You got a type
One strike of lightning
It killed the lights
Awake all night
Cause you
You close your eyes
And it's me in the dress that I wore the night the music died (Ahh!)

She likes your tattoo
The one I drew
If only she knew
I got one too
Awake all night
Cause you're
You're paralyzed
Cause you know the memories are gonna haunt you every time

Heard from a friend that you're both quite obsessed
And it's not hard to figure out why

Does my name come up in your relationship
And shit go down in flames when you let it slip
You're under her cause we're over (Ha ha)
Yeah missing me feels like
Torture!

I got you tied up
Oh look at that
It's not the good kind
More like you're trapped (Ahh!)
Awake all night
Like you're
Buried alive
And I tossed a flower on your grave and walked away just fine

Heard from a friend that you're both quite obsessed
And it's not hard to figure out why

Does my name come up in your relationship
And shit go down in flames when you let it slip
You're under her cause we're over (Ha ha)
Yeah missing me feels like
Torture!

Does my name come up in your relationship
And shit go down in flames when you let it slip
You're under her cause we're over (Ha ha)
Yeah missing me feels like

Does my name come up in your relationship
And shit go down in flames when you let it slip
You're under her cause we're over (Ha ha)
Yeah missing me feels like
Torture!
