

# Come Cryin' To Me

Natalie Maines

Dragging around  
The sins of your father  
Handed on down  
From one to another  
Spinning new wheels  
From lover to lover  
Afraid to come now  
From under the covers

When the world's on your shoulders  
And you just feel like hiding  
When there's nowhere to run to  
You can come crying  
Come crying to me

You know how to fly  
On the wings of disaster  
You try to stand still  
But you keep going faster  
And faster

You thought it'd be easier  
In California  
The tables will turn  
And they won't even warn you

When the world's on your shoulders  
And you just keep on sliding  
When there's nowhere to run to  
You can come crying  
Come crying to me

When the night seems colder  
But the sun's gonna shine  
I won't leave you behind  
No you won't stay behind

When the world's on your shoulders  
And you can't keep confiding  
When there's nowhere to run to  
You can come crying  
When the world's on your shoulders  
And you can't keep from hiding  
When there's nowhere to run to  
You can come crying  
Come crying to me  
Come crying to me  
When the world's on your shoulders  
Come crying to me  
When you just feel like hiding  
You can come crying  
Come crying to me  
Come crying to me  
Come crying to me
