Collapsed

Natalie Taylor

I didn't know you had
The weight upon your shoulders
I didn't know that you felt
Like if you stopped it would be over
I didn't know you had been carrying
The weight of everything that we had
I wish I would've known that
So I could care just before we...

Collapsed, collapsed, collapsed
We collapsed, collapsed, collapsed

I thought that everything we had
Would be forever
I didn't know that we hold on tight
But let go of each other, oh
I should've known I've been standing
On the edge of everything that we had
I wish I would've known that
So I could care just before we...

Collapsed, collapsed, collapsed
We collapsed, collapsed, collapsed

Even in pieces of the floor
I still need you
I still need you, ooh
Even if we can't be what we were
I still want you
I still want you
Even though...

We collapsed, collapsed, collapsed
We collapsed, collapsed, collapsed
We collapsed, collapsed, collapsed
We collapsed, collapsed, collapsed
We collapsed
