

# Control

Natalie Taylor

Twisted you can't turn your mind off  
Every thought is a lost cause  
It pushes and pulls  
Takes everything till your broken

How do we get through  
How do we live like were supposed to  
Til were gone

And do we find out  
What life's about when we let go of control

Let go of control [x2]

Caught up in so many things  
Taking the cure but feeling the pain  
Holdin' it in  
Losin' yourself  
Stayin' alive but you're broken

How do we get through  
How do we live like were supposed to  
Til were gone

And do we find out  
What life's about when we let go of control

Let go of control  
Let go of control

When you're holding on to every thing in stone  
You give up the chance to live out of control

And do we find out  
What life's about when we let go of control

Let go of control  
Let go of control
