

Wildfire

Natalie Taylor

I've come so close to this
There's a feeling of such a heavy rush from it
And it whispers, calls out, holds on till I'm listening

There's a wildfire
Set to blaze
Undiscovered here to change

There's a wildfire
fire fire fire
Whispering

I can't stay far from it
So beautiful
Pulls you in til' you feel it
And it whispers, calls out, holds on til' I'm listening

There's a wildfire
Set to blaze
Undiscovered here to change

There's a wildfire
fire fire fire
Whispering

Even if even if even if it all burns out even if
Even if it all burns out
We're still alive [x2]

There's a wildfire
fire fire fire
Whispering

There's a wildfire
fire fire fire
Whispering
