Forgive me

Natalie

For all the pain that I caused
I didn't mean it
Oh please believe me
I really messed things up
Will you forgive me
Or are you happy

We started out so strong
Felt like it can't go wrong
Open my eyes
Make me see
Just felt like destiny
Then my dreams off and...
Spent less time with you
We didn't have a chance 'cause
This is a fight we'll lose

For all the pain that I caused
I didn't mean it
Oh please believe me
I really mess things up
Will you forgive me
Or are you happy (2x)

I really must confess
Without you I'm a mess
Even though I'm livin my dream
All I see is you and me
The way you used to look at me
I can't get it out of my head
The way used to be so free
I just want that all again

For all the pain that I caused
I didn't mean it
Oh please believe me
I really mess things up
Will you forgive me
Or are you happy (2x)

For all the things that I put you through
Just know that I am sorry and that I hurt too
You run so fast and my dreams just flew
Never thought I'd be that way but who knew (2x)

For all the pain that I caused
I didn't mean it
Oh please believe me
I really mess things up
Will you forgive me
Or are you happy (4x)

Ouuwoohoououuu

Will you forgive me or are you happy
