

# Let Go

Natasha Bedingfield

Yeah yeah yeah  
Hey!

Foggy mornings, weekday grind  
Take a minute to free your mind  
Monday madness, Sunday's best  
Let's go take a walk and catch our breath

Can't let the little things, get you down  
The sun is shining, let's enjoy right now  
No matter where we go, when we close our eyes  
Know it'll be alright  
Well dive through the ocean  
And soar through the skies  
Let go and enjoy the ride  
Hey!

Let go and enjoy the ride

Waves are crashing  
Sandy feet  
Let our troubles wash out to sea  
Climb a mountain, name a star  
We are free to be who we are  
You know it doesn't get better than this

No matter where we go, when we close our eyes  
Know it'll be alright  
We'll dive through the ocean  
And soar through the skies  
Let go and enjoy the ride (enjoy the ride)  
Yeah!

Let go and enjoy the ride

Just let it go  
Just let it go  
Just let it go  
Just let it go, oh, oh  
Oh!

No matter where we go, when we got our eyes closed  
We know we'll be alright, hey hey!  
No matter where we go, when we got our eyes closed  
We know we'll be alright (we know we'll be alright)  
No matter where we go, when we got our eyes closed  
We know we'll be alright

Let go and enjoy the ride
