

Loved By You

Natasha Bedingfield

Do I look different
Wouldn't be surprised if I did
Cause it isn't that often that someone affects me quite like th
is
And there's only one to blame
That I've been all rearranged
Showing all my face that's because

Somebody loves me more than I thought was possible
Somebody's changed me and it's you that's responsible
You gave me your heart, don't need anymore evidence that I'm lo
ved
Somebody gets me and it's not just coincidence
Somebody's for me, and it makes all the difference
You gave me your heart don't need anymore evidence
That I'm loved by you

There's a change for a better a change for good
I'm changed for the better i am changed for good
The world's looking sunny
Cause that's what you do to me

I'm loved by you
Oh
