

Hurtless

Nate Smith

I've been picking up pieces
Damn, you make it look easy
Moving on don't faze you, no
And all the years that we wasted
At least pretend that you're breaking
Tell me how you play it so cool

Heard you been running and running around
Running and running your mouth lately, uh-huh
Can't help wondering, wondering how
You're good with living without me, baby

I wish that I was heartless
Then maybe I would hurt less
I'd forget just like you did
The second you walked out the room
My love
I wish that I was heartless
'Cause I know this would hurt less
But I'm broken in two
I could never feel nothing like you
My love

I've been chasing your shadow
Giving you all the ammo
Take a shot and I miss you (Miss you, miss you)
Got my chest in a chokehold
How the fuck you turn stone cold
When I keep holding on like a fool?

Heard you been running and running around
Running and running your mouth lately, uh-huh
Can't help wondering, wondering how
You're good with living without me, baby

I wish that I was heartless
Then maybe I would hurt less
I'd forget just like you did
The second you walked out the room
My love
I wish that I was heartless
'Cause I know this would hurt less
But I'm broken in two
I could never feel nothing like you
My love

I wish that I was heartless
Heartless
I wish that I was heartless
My love, my love
