Nate Smith

Worked all week, now I'm weak and rich  
Spent that green on some beers in the fridge  
Just cracked a can, didn't have no plans  
'Til the boys starting texting me  
LFG

Threw on my boots and cruised to the bar  
Took a little 80 proof shot in the dark  
With a 10 in the corner and wouldn't you know it  
That pickup line worked perfectly  
LFG

I'm on a roll like I'm holding on to aces  
I'm down to go wherever this night takes us  
Ain't gotta stop rocking when the doors lock up at three  
If you wanna throw down, LFG

If you need a change of scene, well I know a spot  
Little backwoods 40 out off the blacktop  
If you're sober you're driving, I ain't so I'm riding  
Put the GPS on BFE

I'm on a roll like I'm holding on to aces  
I'm down to go wherever this night takes us  
Ain't gotta stop rocking when the doors lock up at three  
If you wanna throw down, LFG
