

Make It With You

Nate Smith

If it's a drive to meet your mama, way back to where you're from

If it's a stop off of the exit for some gas and a pack of gum
If it's a homemade margarita, cheap tequila and a Mountain Dew
Baby, if I'm gonna make it, I wanna make it with you

Oh, I wanna make it with you
Everything and every dream you've been wantin' to come true
A little life out in the country, a little love under the moon
Baby, I wanna make it with you
Aw yes, I do

If it's a scene out at a bar 'cause I can't keep you off my lips
If it's a midnight falling star that needs a truck-hood wish
If on down the line, we find some kind of hell to get through
You've got my hand, just take it, I wanna make it with you
Make it with you

Oh, I wanna make it with you
Everything and every dream you've been wantin' to come true
A little life out in the country, a little love under the moon
Baby, I wanna make it with you
Aw yes, I do

I wanna make it with you
Yeah

I know I'm talking crazy, and I'm getting ahead of myself
I've never felt this kinda way about anybody else
But if you want a family for us to come home to
Baby, I wanna make it with you

I
Oh, I wanna make it with you
Make it with you
Everything and every dream you've been wanting to come true
Oh, yeah
A little life out in the country, a little love under the moon
Baby, I wanna make it with you

Baby, I wanna make it with you
