

# Cheatin'

Nathan Dawe

You've been cheatin' and telling me lies  
Telling me lies, telling me lies

Seven o'clock, coming in when it's morning  
You always reply with a lie when I ask you were you've been  
Guess I'm the fool to ignore every warning  
When I know what you did, I know where you've been

Uh oooh  
But I know what you did  
I know where you been  
Uh oooh  
I know what you did  
I know where you been

Baby please forgive me  
For what I'm about to say  
And what I'm about to do  
I can't take no more  
I know you ain't been true  
Ain't got no love for you

You've been cheatin' and telling me lies  
You been creepin' while I'm sleeping at night  
You been chasing every girl in sight  
You been messing around  
But now you're down it's over now  
You've been cheatin' and telling me lies  
You been creepin' while I'm sleeping at night  
You been chasing every girl in sight  
You been messing around  
But now you're down it's over now

Seven o'clock, coming in when it's morning  
You won't find me inside  
I've packed my bags and walked away  
You don't deserve my goodbye so forget it  
I know what you did  
I know where you been

Uh oooh  
But I know what you did  
I know where you been  
Uh oooh  
I know what you did  
I know where you been

You've been cheatin' and telling me lies  
You been creepin' while I'm sleeping at night  
You been chasing every girl in sight  
You been messing around  
But now you're down it's over now  
You've been cheatin' and telling me lies  
You been creepin' while I'm sleeping at night  
You been chasing every girl in sight  
You been messing around  
But now you're down it's over now

You been lyin'  
Hey, you been tryin'  
Yeah, you been lyin'  
Oh, yeah yeah yeah  
You been lyin'  
Oh, you been tryin', oh  
Hey, hey, hey  
No, no-no-no, no-no-no, no
