

Deep Down (Alok)

Nathan Dawe

I can get down, I can get lonely
Every time I think about the highs
Yeah, messed me around and now you keep calling
Wondering if you can make it right

I told you, it's the end for you and I
Swear this time we're through, but it's a lie
When you call my name, yeah, ooh, that sounds
So right, so right, so right

Deep down, wishing you were mine
Deep down, miss you all the time
Dream 'bout what we could've been if we tried, oh
But deep down, wishing you were mine, were mine

Deep down, you got me so
Deep down, I wanna go
Deep down, you got me so
Yeah
Deep down, you got me so
Deep down, I wanna go
Deep down, you got me so
Yeah

Yeah, need to be strong as soon as I see ya (See ya)
You can turn my tables back around so easy
You got the control (Control), just hearing you speak, yeah
Gets me kinda crazy, kinda foolish, foolish

I told you, it's the end for you and I
Swear this time we're through, but it's a lie
When you call my name, yeah, ooh, that sounds
So right, so right, so right

Deep down, wishing you were mine
Deep down, miss you all the time
Dream 'bout what we could've been if we tried, oh
But deep down, wishing you were mine, were mine

Deep down, miss you all the time
Dream 'bout what we could've been if we tried, oh
'Cause deep down, wishing you were mine, were mine
Deep down, you got me so

Deep down, wishing you were mine (Woo)
Deep down, miss you all the time (I miss you, yeah)
Dream 'bout what we could've been if we tried, oh (If we tried)
But deep down, wishing you were mine, were mine

These sounds fall into my mind (You got me so)
These sounds fall into my mind (I wanna go)
These sounds fall into my mind (You got me so)
These sounds fall into my mind
