

Heart Still Beating

Nathan Dawe

(My heart still beating)

In the start
I would cry every night to the stars
Lost and lonely
It was hard
Eventually I got me out the dark
Don't need nobody

Feel so good, feel so good, feel so good
So good to watch you go
I can't believe I survived, I'm alive
It's worth it, you should know

If you think that I'm in pieces
You should know my heart still beating
If you think I'm barely breathing
You should know my heart still beating

My heart still beating
My heart still beating

(Oh, yeah)
All the messages you sent
You were tripping over texts
I'm cool about it ('Bout it)
I got ice up in my chest
I'm over it, I confess
But I'm still human, I'm upset
I'm cool about it ('Bout it)
Don't need nobody

Feel so good, feel so good, feel so good
So good to watch you go
I can't believe I survived, I'm alive
It's worth it, you should know

If you think that I'm in pieces
You should know my heart still beating
If you think I'm barely breathing
You should know my heart still beating

My heart still beating
My heart still beating
(Da-da-da, da-da-da-da, da-da-da, da-da-da)
My heart still beating
(Da-da-da, da-da-da-da, da-da-da, da-da-da)
My heart still beating
