

Give me back all of these nights
I want back all of the fights that we've been through
Why don't we turn off the lights
I don't mind
You don't mind
We don't mind

Cause we're all in this together
Holding on forever
Now we've got nothing to prove

I know days are getting' better
As long as I'm together with you
Yeah, it's true

Just give me
365 days of my life
I wanna spend them with you

Another
365 nights by your side
I wanna spend them with you

Just give me
365 days of my life
I wanna spend them with you

I lived a life full of lies
Without a chance to survive
Till I found you
I'm not a friend of goodbyes
I don't mind
You don't mind
We don't mind

Cause we're all in this together
Holding on forever
Now we've got nothing to prove

I know days are getting' better
As long as I'm together with you
Yeah, it's true

Just give me
365 days of my life
I wanna spend them with you

Another
365 nights by your side
I wanna spend them with you

Just give me
365 days of my life
I wanna spend them with you

Another
365 nights by your side
I wanna spend them with you
