

# Bonfire

Nathan Evans

I wanna tell you something, but I don't know where to start  
My mind it has been wandering should I tell you from my heart  
I put all those days I wasted overthinking what to say  
Now the day has come I hope my words don't slip away

Then I hear your voice come calling  
Like the sparks of embers burning  
So we walk hand in hand with our footsteps in the sand  
That's on the waves, with hearts ablaze  
O-oh oh

Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn  
Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn  
O-oh o-oh o-oh o-oh  
Let it burn  
O-oh o-oh o-oh o-oh  
Let it burn  
Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn

Underneath the twilight we just gazing at the stars  
Your eyes are like a Friday night, an endless winding path  
The way your heart is, yeah it's beating next to mine  
And if I had one wish oh God I'd stop the hands of time

Then I hear your voice come calling  
Like the sparks of embers burning  
So we walk hand in hand with our footsteps in the sand  
That's on the waves, with hearts ablaze  
O-oh oh

Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn  
Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn  
O-oh o-oh o-oh o-oh  
Let it burn  
O-oh o-oh o-oh o-oh  
Let it burn  
Like a bonfire  
Our love lights up  
Light it up, light it up and let it burn
